Vision Statement

Our vision is that everyone in our diverse community who is affected by a potentially life limiting illness will have equal access to the services and support they need to optimise their quality of life.

Mission Statement

We care about people with a potentially life-limiting illness and aim to add quality and meaning to their life journey.

We do this by:
• delivering specialist palliative care
• providing additional support and services to meet individual needs
• sharing our skills and experience to influence others providing care
• maximising and supporting community involvement

We provide this care and support to people in their own homes, care homes or in the hospice itself.
